

Installing, Configuring and Using Fortinet VPN Client for Google Chromebook

The FortiClient VPN is available in the Google Play store. To download please follow these steps:

1. Search "FortiClient VPN" in the Google Play store and click "Install":

2. Next a screen will ask to "Please grant permissions for FortiClient to: 'Access Storage for Importing Configuration files' and 'Use the Camera to Scan QR codes and for User Profile.'" Click "OK":

FortiClient VPN

Please grant permissions for FortiClient VPN to:

- Access Storage for Importing Configuration files
- Use the Camera to Scan QR codes and for User Profile

OK

3. The next screen is a prompt to "Allow FortiClient VPN to access photos, media, and files on your device?" and "Allow FortiClient VPN to take pictures and record video?". These are optional. Select "Deny" or "Allow" to advance:

Allow **FortiClient VPN** to access photos, media, and files on your device?

1 of 2

DENY ALLOW

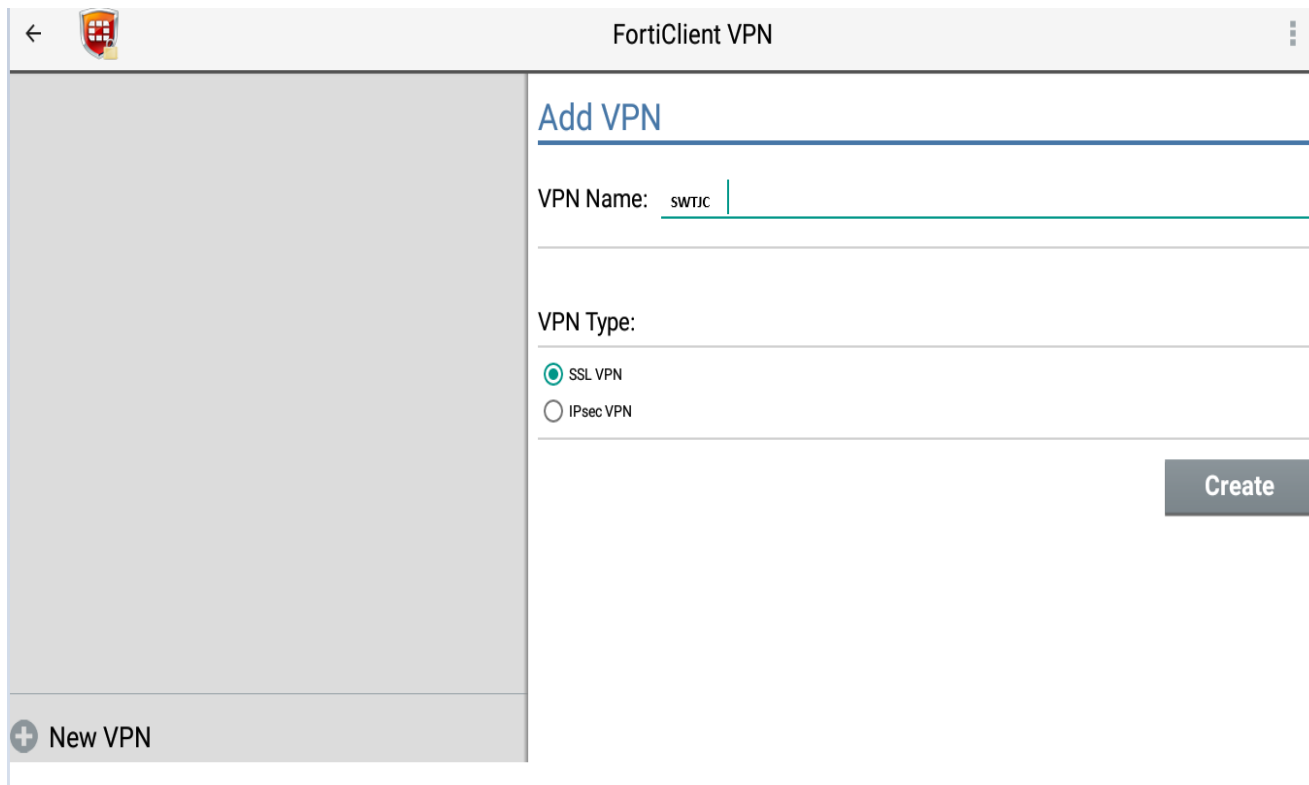

Allow **FortiClient VPN** to take pictures and record video?

2 of 2

DENY ALLOW

- At the next screen click Add VPN, enter "SWTJC" in the "VPN name" field, and select "SSL VPN" for the "VPN Type":
